

GUIDING PRINCIPLES FOR
RESPONSIBLE CARE OF CHEMICALS

As a member of the Chemical Manufacturers Association, this company is committed to support a continuing effort to improve the industry's responsible management of chemicals. We pledge to manage our business according to these principles:

- o To recognize and respond to community concerns about chemicals and our operations.
- o To develop and produce chemicals that can be manufactured, transported, used and disposed of safely.
- o To make health, safety and environmental considerations a priority in our planning for all existing and new products and processes.
- o To report promptly to officials, employees, customers and the public, information on chemical related health or environmental hazards and to recommend protective measures.
- o To counsel customers on the safe use, transportation and disposal of chemical products.
- o To operate our plants and facilities in a manner that protects the environment and the health and safety of our employees and the public.
- o To extend knowledge by conducting or supporting research on the health, safety and environmental effects of our products, processes and waste materials.
- o To work with others to resolve problems created by past handling and disposal of hazardous substances.
- o To participate with government and others in creating responsible laws, regulations and standards to safeguard the community, workplace and environment.
- o To promote the principles and practices of Responsible Care by sharing experiences and offering assistance to others who produce, handle, use, transport or dispose of chemicals.
